

PORCELAIN

art of skin refinement

Dull skin

WHAT: Oxyrevive Treatment (\$68 for the first time and \$195 for subsequent visits, for 60min) at Porcelain, The Face Spa, 15 Cantonment Road (tel: 6227-9692).

THE TREATMENT: It uses a high-powered hand-held jet spray to deep-cleanse pores as well as infuse nutrients from plant extracts into skin. My therapist started with a double cleanse and proceeded with the Oxyjet Gentle Micro-dermabrasion Therapy. She then used a hand-held jet spray to deliver saline and oxygen at high

pressure to kill bacteria and soften stubborn impurities. Next, she sprayed on a customised serum that helped soothe and hydrate my skin. She finished with a cooling camomile mask and a relaxing shoulder massage. A word of advice: Go for this facial only if you are not pressed for time, because the treatment did overrun by about 15 minutes. However, my face did feel smoother and firmer after, and my complexion also looked brighter, so I'm not complaining. – Joyce See, features writer
