TRIED+TESTED

QUINTESSENTIAL FACIAL @ PORCELAIN, THE FACE SPA

Relaxing is not how I would begin to describe this. Cleansing is the word, a very thorough and sometimes painful process to achieve healthy skin. In the 120-minute process, the time was largely used to extract the congestion of oil, make-up and dirt from each individual pore. Don't be alarmed, throughout the entire process, the therapist patiently explained which part of the face she will begin work on and why this is essential to better absorb skincare and prevent blackheads. It's very normal to start tearing too, she will attentively wipe your cheeks for you. The facial ends off with the application of custom-blended serums and a mask to soothe your skin. You may leave with minute red lines but those will disappear within a day leaving radiant skin. Before you leave pick up a tube of the Flawless Skin Perfecting Moisturizer (\$150), this weightless texture packs oil-free hydration and SPF20.
